Job Location: Chandler Signs, Forth Worth, TX

JOB OPPORTUNITY

Pattison Sign Group is a highly successful, North American Company growing organically and through ongoing acquisitions. It is one of the world's largest sign and physical branding element companies, with eight (8) manufacturing facilities, five (5) sales and operations offices and over 1000 employees across North America. In addition to the Pattison Sign Group brand, the following respected brands are part of the PSG family: Teksign, Provincial Sign Systems, Bestworth Rommel, DEX powered by PSG, FBC and Chandler Signs.

The company is dedicated to absolute customer satisfaction and ultimate quality in its products and services. The culture of the company is focused on performance and accountability and supports employee empowerment and development.

The company operates independently within The Jim Pattison Group, headquartered in Vancouver, and comprised of over 605 locations worldwide. The Jim Pattison Group is broadly based across the automotive, media, packaging, food sales and distribution, magazine distribution, entertainment, export, and financial industries. With sales of over $15 billion in 2022 and more than 49,500 employees, the Jim Pattison Group is the second-largest private company in Canada.

OVERVIEW

At PSG, we rely on our IT systems to power the solutions that help our employees and consumers in North America. We are seeking a skilled and motivated **.NET Core Developer** to join our dynamic team.

Reporting and working closely with the Senior Director of Information Technology, the **.NET Core Developer** will play a crucial part in maintaining and enhancing our existing VB 6.0 and VB.NET applications, as well as leading the migration of these applications to .NET Core. Your responsibilities will span the full life cycle of development for VB.Net and ASP.Net based systems, showcasing your ability to meet deadlines and work independently.

Primary Responsibilities (Role):

- Maintain and enhance existing VB 6.0 and VB.NET applications, including the integration of 3rd party applications.
- Lead the migration of existing applications to .NET Core.
- Full life-cycle development responsibilities for VB.Net and ASP.Net based systems.
- Demonstrate the ability to meet deadlines, self-motivation, and the capability to work independently.
- Design, build, and maintain efficient, reusable, and reliable code.
- Integrate with partner solutions via REST-based APIs

- Ensure optimal performance, quality, and responsiveness of applications.
- Exhibit effective communication skills to convey technical concepts to non-technical professionals.
- Possess good troubleshooting and debugging skills.

Experience

Technical strengths in the following Microsoft technologies:

- Visual Studio VB.Net / C# / .NET CORE / ASP.Net
- Experience with database technologies such as SQL Server, MySQL, or similar.
- Familiarity with Reporting Services (SSRS)
- Strong understanding of web development technologies like HTML, CSS, JavaScript, and modern front-end frameworks.

Competencies

- Bachelor Degree in Computer Science, Engineering, or related field (or equivalent experience)
- 7+ years experience designing, developing and deploying applications within a Microsoft .Net environment.
- Professional verbal and written communication skills
- Advanced troubleshooting and problem solving skills
- Proven ability to balance multiple priorities
- Ability to work under pressure and meet deadlines
- Collaborative team player
- Open minded and innovative
